

24-port LC fiber optic terminal box

Overview

Premium Line's 24 port wall mount fiber optic box is designed for direct termination of fibers. The box includes two separate sections: one for the fusion splice trays and one for the cable routing. The cable entries/exits are sealed with a flexible grommet, which can be adjusted to the desired. LC Duplex Fiber Adapters for 24 Port Fiber Optic Terminal Box Fiber Patch Panel is fully loaded with panels, adaptors, splices trays and accessories and is ready for installation. It is suitable. Fiber Distribution Box is made of high-strength steel, anti-UV, anti-aging ability. Ideal for FTTH applications, this compact wall-mountable cabinet integrates termination, splicing, and distribution functions in. An optical distribution frame (ODF) is a frame used to provide cable interconnections between communication facilities, which can integrate fibre splicing, fibre termination, fibre optic adapters & connectors and cable connections together in a single unit. It can also work as a protective device.
