

48-port Gigabit Optical Switch for Enterprises

Overview

The S5800-48T4S-PE is a high-performance, secure, and easy-to-manage enterprise-grade Gigabit access switch with 48x 10/100/1000BASE-T RJ45 access ports and 4x 10Gb uplink ports for flexible network deployment. Leverages dual advantages of long-distance transmission and data aggregation, specifically designed to overcome the 100-meter transmission limit of traditional Ethernet cables. 1-Year Insight subscription included. Easily deploy, manage, and monitor NETGEAR Insight managed routers, switches, and access points all from a single pane-of-glass. It is equipped with 2 hot-swap AC power supply (1+1 redundancy) and 3 built-in smart fans to ensure good redundancy and heat dissipation. The S5600-48S4X managed switch can be simply managed by. The MS130-48 cloud-managed 48 GbE network switch is optimized for medium to large campuses with Wi-Fi and IoT deployments. It offers comprehensive Layer 2/3 capabilities, including MLAG, MPLS & VXLAN-BGP-EVPN. CPU Protect Policy (CPP) is supported to control the packet type and traffic volume sent to the CPU to prevent high CPU usage.
