

4u Ultra-High Density Fiber Optic Distribution Frame

Overview

The STAR ODF 4U is a high-density, pre-terminated optical distribution frame of compact design, with 12 pull-out trays, having a maximum capacity of 576 fiber optic connections with easy access to make moves, adds and changes (MACs) faster and smoother. Ultra High Density 4U modular cassette sliding Panel, accepts (24) G2 modules or MPO panels, providing up to 288 duplex LC ports or up to 192 MPO ports. Finish making your selections or clear them to view relevant specifications. You are about to download a machine translated document. To prove. The Corning® Optical Distribution Frame is optimized for high-density cross-connect applications. Samples policy For Small quantity samples, we offer without charges, But shipping and taxes paid by the buyer. Designed for fast, easy deployment of high-density interconnects and cross-connects in Data Centers and LANs, the FiberExpress UHD (FX UHD) System provides superior port access and protection, even while supporting ultra-high-density connections.
