

5300 Core Switch

Overview

The Brocade 5300 Switch is an 80-port, high-density 2U building block for small and medium-sized SAN consolidation and for the core and edge of enterprise fabrics. It can grow and change with minimal disruption. The Brocade 5300 Switch is designed to consolidate connectivity in rapidly growing mission-critical environments—combining 1, 2, 4, and 8 Gbps technology in configurations of 48, 64, or 80 ports in an efficient form factor or M-Enterprise OS (M-EOS)*. Page 1 DATA SHEET BROCADE 5300 SWITCH STORAGE AREA NETWORK HIGHLIGHTS • Delivers full 8 Gbit/sec 1:1 performance for up to 80 ports in a single-domain, optimized 2U form factor • Offers best-in-class port density and scalability for enterprise SAN switches along with redundant, hot-pluggable. Powered by a 40G backbone core and 2.5G symmetric uplink Passive/Active Optical Networking Support Core Switch + OLT 2-in-1 for Flexible Networking Support for Optical Network (P2MP) and Ethernet Network (P2P) 10G Uplink Full-Speed 2. Delivering 8 Gbps performance along with redundant, hot-pluggable components and non-disruptive software upgrades, the Brocade 5300. s of today's consolidated virtual data center.
