

Do the Philippines also have telecommunications towers

Overview

In February 2024, independent towercos PhilTower and MIDC announced a brand-new JVco that will combine and consolidate its presence in key Filipino markets in Luzon, Visayas and Mindanao, whilst bringing improved coverage for MNOs and supporting the country's connectivity needs. Alliance Towers all set to build 500 digital towers a year. Aiming to support the Philippines' digital transformation and the telecommunications industry efforts to address the growing demand for fast, stable and reliable internet connectivity through tower services, Alliance Towers Corporation. PhilTower aims to provide facilities for mobile cellular coverage and high speed internet. We are in the business of enabling a "Connected Lifestyle. We build shared. Frontier Tower Associates Philippines is the Philippines' largest cell tower infrastructure company, currently with ~5,000 towers nationwide under ownership and management, about 800 of which are built-to-suit (BTS) sites we have deployed, more than any other tower company. The two dominant operators have about 10,000+ towers each with the newest entrant targeting to develop about 7,000+ towers by 2023.
