The High Voltage Power Box combines the functionality of an Onboard Charger (OBC), a DC/DC converter and a PDU (Power Distribution Unit). The OBC is the interface between the car and the public grid. The focus here is on solutions for manufacturers of mobile machinery. VIOX distribution boxes utilize high-quality ABS plastic, offering exceptional durability and electrical insulation. Choose VIOX. To address this, HUBER+SUHNER provides comprehensive high voltage solutions designed to handle power flow safely and efficiently.
