

Fiber optic patch cord lc-lc-UPC

Overview

This fiber optic patch cable, made with Corning® SMF-28® Ultra Fiber has a UPC or "Ultra Physical Contact" polish on the fiber optic connector end faces. This polish results in a highly radiused domed end face surface that optimizes physical contact between the mated fiber cores. Fiber optic technology is the basis of today's communication networks, offering fast, long-distance, and low-loss data transmission. With compact designs and reliable performance, LC UPC patch cords are ideal for high-density environments like data centers and enterprise networks. The quality of the components used to build our fiber optic. #08614 » Wave Optics Patchcord duplex L=3m Insertion Loss: ≤ 0.20 dB; Return Loss: ≥ 50 dB; Repeatability: ≤ 0.6 mm Duplex, Low Smoke Zero Halogen (LSZH) Finish making your selections or clear them to view relevant specifications. Your web browser (Internet Explorer 11 or lower) is out of date and the functions below will not work with. Fiber optics has changed how information moves from one location in a network to another by providing faster and more reliable connectivity essential for various services.
