

Fiber optic plug protection

Overview

Adapter dust caps are specially designed covers placed on the open ends of unused fiber optic adapters. Their primary purpose is to prevent dust, debris, and other contaminants from entering the adapter and potentially damaging the sensitive fiber end-faces or connectors. What are fibre optic accessories used for?

Fibre optic accessories are used in. Here you can find fiber optic protection caps for several purposes: We offer dust covers for LC cable connectors and connector jacks as well as dust caps for SC or FC jacks. You can also obtain dust covers for unused adaptor slots of cable management patch panels, and dust protection caps for SFP. This 10-pack of SFP dust covers provides an inexpensive way to protect your network switches and fiber optic equipment from dust and contaminants, by covering the exposed and unused SFP slots. Protect your network equipment investment Simply insert the dust covers into any empty SFP/SFP+ slots in. Learn why IT Pros trust StarTech. com for performance connectivity accessories. Easy handling pull-tab type for SFP, QSFP and CXP ports. / DIMENSIONS Industrial control box, Junction box, Distribution box, Audio amplifier chassis, and more. Choose from a wide range of over 48,000 items. Our website has detected that you are using an unsupported browser that will prevent you from accessing certain features.
