

Fiberglass Hard Tail High Gloss Float

Overview

Enhance your rock fishing experience with this durable composite fishing float designed for visibility and performance. Featuring a luminous glow for low-light conditions and a cut tail for natural movement, it's ideal for attracting fish in various water conditions. Choosing the right clear coat for fiberglass boats and watercraft helps protect against UV damage, chemicals, and blistering while maintaining a showroom gloss. This guide surveys high-performance marine gel coats and clear coatings designed for fiberglass substrates, highlighting UV resistance. It is the two-quart kit that comes with The GatorBase and The G2. I would pick two colors so you can see your wear layers. This way when you wear the G2 you will see the Base color and know when to touch up. Ideal for cosmetic repairs, hull coatings, and composite parts on boats and RVs, it allows easy one-step application with a brush, roller, or spray gun. The. Tap thumbnails or arrows to switch the view. Core features in a compact overview.
