

French high-speed optical cable

Overview

TAT-8 was the 8th transatlantic communications cable and first transatlantic fiber-optic cable, carrying 280 Mbit/s (40,000 telephone circuits) between the United States, United Kingdom and France. It was constructed in 1988 by a consortium of companies led by AT&T. Market Size & Growth Rate: The France High Speed Active Optical Cable (AOC) market is projected to grow at a CAGR of approximately 12-15% over the next 2 years, driven by increasing data center investments and enterprise digital transformation initiatives. Market Drivers: Rapid expansion of 5G. Altitude Infra is a specialized telecom infrastructure operator in France that focuses on the deployment and operation of fiber optic networks, offering services such as Fiber to the Home (FTTH) and Fiber to the Office (FTTO). The company's commitment to enhancing digital connectivity aims to. Since 1986, JENOPTEC NT, based in Buc (78) in the heart of the Yvelines, has specialised in fibre-optic and optoelectronic solutions for harsh and demanding environments.
