

# Georgia to Optical Cable

## Overview

The Black Sea Submarine Cable project is an ambitious vision to establish parallel electricity and fiber-optic submarine cable interconnections across the Black Sea, with landing points in Georgia and Romania. We are a boutique shop that caters to the needs of carriers and ISPs. We have extensive experience loading rack and wall mount fiber distribution panels. The project will construct a high voltage direct current (HVDC) electric submarine cable. This work includes the installation of fiber optic cable and equipment including but not limited to cable, interconnect, patch cords, FDC interconnect cables/pig tails, any cable related hardware, connectors, splices, closures, temporary systems, testing, training, or any other fiber optic product. At Convergis Technologies, we are licensed and insured in the state of Georgia to install fiber optic cable, and our nearly 20 years in business mark us as a company that knows how to do the job right. Various other types include AC, adapter, coaxial, Ethernet, HDMI, power, multi-conductor, paired and welding cables. Vendor managed inventory (VMI) programs and stock items available. Meets. American Tech Supply is a national stocking distributor of fiber optic cables including singlemode fiber optic cable and multimode fiber optic cable ranging from 2 fiber to 864 individual fiber cables for FTTX – or “Fiber to the Home applications.
