

# How much does a micro-module data center cost in Kazakhstan

## Overview

Installation of the small micro data center can cost around 400-500\$ per sq. foot to construct, this is apart from the cost of land as land will cost you as per the location you choose. The Kazakhstan Micro Mobile Data Center market is experiencing rapid growth, driven by the increasing adoption of edge computing solutions across various industries such as telecommunications, healthcare, and retail. Every project is different, but the industry has reliable cost benchmarks you can use as a starting point. Unlike traditional brick-and-mortar data centers that require extensive on-site work, hidden fees, and long lead times, the Micro Modular data center is designed to simplify both deployment and budgeting. 49 billion by 2030, at a CAGR of 17. The increasing adoption of cloud computing, coupled with the need for scalable, mobile, and disaster-resilient infrastructure, is driving. We currently have 15 data centers listed, from 7 markets in Kazakhstan.
