

Huawei 10G Optical Module 02314

Overview

It supports 10 Gbit/s transmission, operates at 1310 nm, uses single-mode fiber, and works within a commercial temperature range of 0°C to 70°C. If the SFP-10G-ER-1310 is connected to a 10Gbase-ER standard optical module (1550nm, 10GE, 40km), the maximum transmission distance is only 20km due to different specifications such as wavelength and receiving sensitivity. Single-fiber bidirectional (BIDI) optical modules must be used in pairs. The module is designed for single-mode fiber links up to 10 km and uses a duplex LC optical connector for connectivity. Yes, it supports DDM, allowing. All products are original, sourced from reputable suppliers. Please verify part numbers for system compatibility before ordering. 02314GFL Huawei® compatible Transceiver SFP+ 10GBase-ER (1550nm, SM. This product is highly beneficial for data centers and enterprise networks needing robust and long-range connectivity. The Huawei SFP 10G LR I 02314LBW Optical Transceiver is a high performance, small form factor pluggable (SFP+) transceiver module designed for use in 10 Gigabit Ethernet (10GbE) networks.
