

Intelligent PDU power distribution products

Overview

An Intelligent Power Distribution Unit (iPDU), also known as a Smart PDU or Intelligent PDU, is a critical component in modern data center infrastructure. iPDUs serve as a centralized power management solution that enhances the efficiency, reliability, and monitoring. Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. Generate Instant Quote – Create and download quotes instantly for review or approval. The range consists of four models offering various levels of power monitoring and power switching features, and can be manufactured as single, dual or 3-Phase with a choice of socket types and mains lead. Select the PDU that's right for you from 1,000+ unique models Lorem ipsum dolor sit amet, consectetur adipiscing elit.
