

Original genuine low-temperature resistant high-speed optoelectronic connector

Overview

The HJ30J Series Micro Rectangular High-Speed Connectors are designed for high-density, high-speed board-to-board interconnections in chassis and cabinet-level applications, offering excellent electrical performance and mechanical reliability in harsh environments. Our engineers and. Skyworks is the leading global supplier of high performance, high quality and radiation tolerant optoelectronic components for aerospace, defense, medical, extreme industrial and high-reliability markets and applications. We pioneered the miniaturization of some of the most advanced optoelectronic. Smart Filtering As you select one or more parametric filters below, Smart Filtering will instantly disable any unselected values that would cause no results to be found. Please modify your search so that it will return results. Together with our franchised manufacturers, we can support almost all requirements in satellite applications. The TLK2711-SP supports an effective serial interface speed of 1.
