

Panama Through Bridge

Overview

The Bridge of the Americas (Spanish: Puente de las Américas; originally known as the Thatcher Ferry Bridge) is a road bridge in Panama which spans the Pacific entrance to the Panama Canal. Designed by American civil engineering company Sverdrup & Parcel, it was completed in 1962 at a cost of US\$ 20. Tripadvisor gives a Travelers' Choice award to accommodations, attractions and restaurants that consistently earn great reviews from travelers and are ranked within the top 10% of properties on Tripadvisor. Spanning the Pacific entrance to the Panama Canal, this 5,007-foot-long arch bridge connects. Complete guide to Panama's Bridge of the Americas: history, best viewpoints, walking access, photo tips and traffic notes. This architectural marvel not only physically bridges the gap between Panama City and the interior of Panama, but it also serves as a symbolic link. Things to do ranked using Tripadvisor data including reviews, ratings, number of page views, and user location. Can you cross Panama Canal by car?

Yes.
