There are mobile fiber optic cables on the roadside in Brunei

Overview

Today, there is a single fixed mobile infrastructure and UNN has prepared the network for the launch of nationwide 5G services. It has also laid additional 2,000km of fiber networks and expects to have in place a fiber-only access network by mid-2024. Lowering end-user costs13 March 2024 - In September 2019, Unified National Networks Sdn Bhd (UNN) began initiatives to further modernize and expand the country's aging telecommunications network infrastructure. A Fixed Broadband Uplift Program. Brunei possesses an extensive system of telecommunications, including telephone and mobile phone service, internet service, television and radio. The primary reason for the weakness is that, while Brunei's substantial oil and gas. When Steffen Oehler become CEO of Brunei's national wholesale network company, Unified National Network (UNN), at the end of 2018, he took on a challenge different to any he had encountered during the previous 28 years he spent at Detecon, which is a subsidiary of Deutsche Telekom's T-Systems.
