

Where to buy fiber optic collimators

Overview

Explore 28 top manufacturers and suppliers of Fiber Optic Collimators in our comprehensive photonics buyers' guide. Use this fiber collimators buying guide to compare major types, define selection criteria, and find suppliers: Professional purchasing of high-value photonics products is a substantial responsibility, where a structured decision-making process is essential. ©2025 Newport Corporation. Our product range includes laser beam. LightPath® Fiber Optic Collimators are designed to collimate light exiting a fiber to a desired beam diameter or spot size or to focus light into a fiber when used in reverse. These C-lens collimators feature a Ø1.8 mm clear aperture and are coupled to SMF-28 Ultra single mode fiber. They are designed to be used in pairs, with a free-space beam between the lenses, and can also be used individually. We offer. 400 - 2200nm | Excellent Pointing Accuracy | High-Power Capable 350 - 2200 nm Active Or Passive, PM Or Non-PM 10 - 20 mm 4 - 12.05 dB According To Customer Requirements $M^2 < 1$.

Article Content

Fiber Optic Collimators | Suppliers | Photonics Buyers" Guide ...

Explore 28 top manufacturers and suppliers of Fiber Optic Collimators in our comprehensive photonics buyers" guide.

Global Leader in Materials, Networking, and Lasers

Learn how Coherent empowers innovations and breakthrough technologies for the industrial, communications, electronics, and instrumentation markets.

Monolithic Fiber Collimator | Fiberbridge Photonics

Fiber Collimators - Monolithic All-Glass Solution. kW-Class Power. For Passive and Active Fibers. Customized AR Coating and Lens Sizes.

WaveSource Photonics, Inc.

We provide a full family of Gaussian beam fiber-optic collimators for coupling light into and out of fibers. Through detailed design considerations and proprietary

C-Lens Fiber Optic Collimators/Couplers, Single Mode

Thorlabs offers pigtailed fiber collimators that use C-lenses. These C-lens collimators feature a Ø1.8 mm clear aperture and are coupled to SMF-28 Ultra

Fiber Collimator

Fiber Optic Collimators Fiber-optic collimators are used to launch the light from an optical fiber into a free space collimated beam.

FiberPort Collimators / Couplers

Suitable for Single Mode (SM), Multimode (MM), and Polarization-Maintaining (PM) Fiber AR Coating Options for Visible, NIR, and MIR Wavelength Ranges (See

Kungshu Omaf Series Fiber Optic Collimator Adapter with

Kungshu Omaf series fiber optic collimator adapter features SM05, SM1, and SM2 external threads for precise alignment in optical laboratory beam steering systems.

GRIN Fiber Collimator Market Report: Trends, Forecast and

GRIN Fiber Collimator Market Trends and Forecast The future of the global GRIN fiber collimator market looks promising with opportunities in the optical communication, fiber optic sensing, laser processing,

LightPath® Fiber Optic Collimators

LightPath® Fiber Optic Collimators are designed so that they can be used in pairs to couple the input and output light of optical devices. Optimum performance for

Fiber Optic Components

Our high-performance isolators, optical circulators, and collimators are engineered to excel in demanding optical applications. Built for precision and reliability,

Fiber Collimators – Buying Guide & Supplier List | RP

Fiber Collimators – Buying Guide & Suppliers Use this fiber collimators buying guide to compare major types, define selection criteria, and find suppliers: ☐☐

LightPath® Fiber Optic Collimators

LightPath Fiber Optic Collimators are used to collimate/focus light exiting a fiber to a desired beam diameter and are available at Edmund Optics.

Future Outlook of the Germany Fiber Optic Collimator Array ...

The Germany Fiber Optic Collimator Array Market prioritizes cost control and efficiency enhancement. Additionally, the reports cover both the demand and supply sides of the market.

Buy Collimators | Best wholesale prices from suppliers ...

Fiber Optic Collimators: Precision Beam Control for Fiber-Coupled Systems Fiber optic collimators are key components in photonics systems that transform the divergent light emerging from an optical

OZ Optics Online | Collimators

Explore OZ Optics' fiber optic collimators for precision optical applications, offering high performance and reliability for diverse needs.

Fiber, Receptacle Collimators and Focusers

Product PortfolioFor collimation or focusing tasks, a very broad and complete line of fiber optic components is available from AMS Technologies for coupling light into and out of optical fibers.

OZ Optics Online | Collimators

Multi Mode Fiber Pigtailed Collimators with Aspheric Lens Polarization Maintaining
Fiber Pigtailed Collimators with C Lens Single Mode Fiber Pigtailed Collimators with C Lens Polarization Maintaining

Disposing aperture-truncated radiation of divergent beam in fiber optic ...

The best performance of an array requires a high density of fiber collimators (sub-apertures) with ideally 100% lens fill factor, and significant truncation of the Gaussian beams emitted by fiber tips.

Fiber Collimators – Buying Guide & Supplier List | RP

This fiber collimators buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Large Fiber Collimators

We manufacture High Performance Fiber Collimators that are designed to give highly collimated beams with high transmission and low transmitted wavefront

FindLight

Buy Now Fiber Port Couplers/Collimators with Aspheric Lenses 4.6mm, 7.5mm, 11mm EFL Sold by: YSensor \$705.71 Buy Now Polarization Maintaining Fiber Optic Patch Cord PM980-XP FC/APC
